

# Admiral C Force 50 Preparing For Launch

April 01, 2016

The Italian shipyard, [Admiral](#) is preparing for the launch of the second superyacht out of four scheduled to hit the water this year. The shipyard, part of [The Italian Sea Group](#) and located in Marina di Carrara, is ready for the first [Admiral C Force 50 superyacht](#) to hit the water.

The full displacement luxury yacht was built with a steel hull and aluminium superstructure. Her striking exterior lines are the work of [Uniellé Yacht Design](#), with interiors by the Admiral Centro Stile in collaboration with [Arch. Gian Marco Campanino](#). The Admiral C Force 50 represents a new way in modern yachting design, creating a new breed of Admiral Yachts.

Luxurious accommodation is provided in six large cabins, with the master suite situated forward on the main deck. Although boasting exceptional interior volume, the Admiral C Force 50 has a Gross Tonnage under the 500 GRT.

Once delivered to her Owner, the yacht will be cruising the [Mediterranean](#) this summer, following which she will be present at the 2016 [Monaco Yacht Show](#) in September.
