

Unveiled at the 2015 Fort Lauderdale International Boat Show, Admiral's Vestal Series was crafted by Setzer Yacht Architects to boost the Italian yard's presence on the increasingly-relevant US and Latin American markets. The all-aluminium 42-metre semi-displacement will accommodate 10 guests as well as a crew of seven and her 15-knot top speed will come from twin 1,400 hp Man engines. The other two models will be steel-hulled and topped by aluminium superstructures. The 50-metre will treat her 12 guests to sweeping views of sea and sky via multiple skylights (master stateroom, pilothouse, aft deck overhangs, flybridge hard top) at 13 to 18 knots. The 62-metre four-decker, on the other hand, has seven luxe cabins for 14 guests cared for by 16 crew. Key attractions include an infinity pool with swim-up bar, an owner's quarters with private lounge and deck area, and an open-out balcony on the main.
