

Admiral getting ready to launch 50m C Force superyacht

Having launched their flagship yacht just last week, the 55m hybrid E Motion superyacht *Quinta Essentia*, Italian yachting brand Admiral is preparing again for another big event at the Italian Sea Group shipyard: the launch of the first 50 metre C Force superyacht.

The Admiral C Force 50 boasts exterior lines by Uniellé Yacht Design and interiors design by the Admiral Centro Stile in cooperation with Arch. Gian Marco Campanino. The interior layout provides for six large cabins, with the master suite placed forward on the main deck. The yacht features a high volume inside, yet the Gross Tonnage has been kept below the 500 GRT mark.

She is to cruise throughout the Med during the summer and will be officially presented at the 2016 Monaco Yacht Show in September.
