

STYLE, *prestige* AND TRADITION

The Italian Sea Group

YACHTS

Under the motto "Style, Prestige and Tradition are our values", The Italian Sea Group is nowadays one of the world's biggest conglomerate groups in boating, with 145 ships and 420 yachts launched, a total production area of 100,000 sqm and over 1000 people at work. Managed by the entrepreneur Giovanni Costantino, The Italian Sea Group is today present in the market with five different brands: Admiral, Admiral Sail, Tecnomar, NCA and Franck Muller Yachts.

offices on four levels where art blends with the yacht building process and luxury interiors enhance the experience for their Guests and serve as an inspiration for their Guests' own Yacht's interiors. The shipyard's interior and exterior premises host a rotating art gallery where known and emerging artists display their work throughout the year.

A countless choice of woods, marbles, textiles, leathers and more allow every new Owner to materialize their dream yacht into reality. The large team of talented interior designers convert the Clients feedback into a unique project. Elegance is always the common denominator.

Tradition and innovation blend to form four distinct brands under the Italian Sea Group with the capacity to produce yachts up to 200 m.

The definition of luxury, quality and design, Admiral is the Group's flagship brand. Its diversified fleet range consists of ten distinct series from 37 to 145 meters. Admiral has launched 136 yachts since 1966.

Admiral Sail comes to offer great value in high end luxury motor sailers penned by famous designer Philippe Briand and ranging from 38 to 60 meters. All motor sailers feature an exclusive design with innovative features and put a special emphasis on cruising safety and comfort onboard.

Tecnomar is the definition of sportiness, speed and customization. Its diversified fleet range consists of two distinct series and one custom series up to 50 meters under 500GT. Tecnomar has launched 284 yachts since 1987.

The epitome of duty commercial construction, Nuovi Cantieri Apuania (NCA) has a vast know-how and expertise, along with impressive facilities which have been transferred into the yachting hub of the Italian Sea Group enabling the building of mega yachts up to 200 meters. NCA has delivered 145 ships and vessels up to 250 meters long since 1942.

Franck Muller Yachts is a project born from the encounter of two strong and visionary personalities: Mr. Giovanni Costantino, Chairman of The Italian Sea Group, one of the world's premium yachting Groups and Mr. Vartan Sirmakes, owner and co-founder of Franck Muller, one of the world's most famous and prestigious watch makers.

The Italian Sea Group, one of the world's premium yachting Groups, began a long story of building ships and vessels up to 250 meters long in 1942. 24 years later, the Admiral brand started its story by launching a wooden 18 meter boat. The beginning of a new era was signaled in 1982 with the launching of the first Admiral 23.5 meter planing motor yacht in aluminium. The Tecnomar brand was born in 1987 with the production of its first 20 meter open model. In the year 2009 the new Chairman, Giovanni Costantino, led a significant reorganization of the Group. The Italian Sea Group, one of the world's biggest conglomerate groups in boating,

was formed in 2013 when the brands came together. One year later 15+ Million Euro of new shareholder equity invested in order to build the new headquarters and refit the 100,000 sqm of the shipyard's premises in Carrara. The combination of the new floating dock and the 200 m drydock gives the Group a unique strength to efficiently launch and haul the world's largest yachts. The 11 newly completed sheds can accommodate multiple Yachts up to 200 m length. A 200 ton capacity crane lifts with ease parts of new constructions. Every day over 1000 workers (direct employees and subcontractors) work together, driven by a common passion: production of the highest quality.

The Italian Sea Group can pride itself with 3.600 sqm
