The International Yacht and Aviation Awards reward the best in design from across the globe. Admiral Maxima 47 Entourage, the tri-deck Entourage with full-height panoramic windows won into the category "Interior Design Award – Power Yacht"

Press Release

ENTOURAGE Main Features

ENTOURAGE is a trideck yacht, boasting a traditional white color enriched by matt black areas in correspondence with side windows. The full-height panoramic windows flood the yacht interior with natural light and offer unparalleled views. The main deck is incredibly spacious with full headroom opening sliding doors on both sides of the main salon. This area also includes the dining area, while forward on the main deck is the master suite.

On the lower deck four large guest cabins find place, two VIP's and two doubles which may become two twin or even triple bed when required; all of those cabins feature a private ensuite bathroom, enriched with precious materials. On the upper deck, a spectacular skylounge salon finds its perfect location, taking the whole beam of the yacht, featuring full headroom side windows and even an opening balcony on the starboard side, which creates a further terrace to enjoy the nights at anchor.

Going upstairs we find a huge sundeck area, normally found on much larger yachts, partly overshadowed by the hard top and featuring a bar corner, a large Jacuzzi, large table for 'al fresco' dinners and of course sun bathing areas. The yacht also features big external areas on the upper deck, where the external dining area finds place on the aft terrace, and on the main deck, where the aft cockpit offers a huge lounge and reception area. This space is also directly connected to the aft beach club, which is obtained opening the transom door. This area is also connected to the garage where all the toys find place. The launching system for those is provided through a crane which launches and lifts the tenders through a side opening port.

The garage is directly connected to the engine control room, which gives access to the actual engine room, and it's also accessible by a staircase which connects the garage to the main deck.

Luca Dini drew the yacht's exterior styling working closely with the Admiral Centro Stile. The Designer Dragana Maznic is responsible for interiors.

M / Y Entourage had the greatest honor to host on board the **Prince of Monaco Albert II** during the latest Monaco yacht Show during the ceremony of delivery of the plate referring to the Green Plus certification issued by RINA (Registro Italiano Navale).
