

## The Italian Sea Group Displays Four Impressive Yachts In Monaco

Published: Friday, 03 October 2014

The Italian Sea Group showcased four yachts at the Monaco Yacht Show in September.

The 47m M/Y *Entourage* had the great honour of hosting on board the Prince of Monaco Albert II at a ceremony presenting the Green Plus certification issued by RINA (Registro Italiano Navale). The Art on Waves show held on *Entourage* was a great success, with over 100 guests.

*Gigreca*, the 24m Admiral Sail Silent, was certified Green Plus Platinum, the highest recognition bestowed on a Green Plus boat. M/Y *Nono* received the Best of the Best trophy from *Robb Report*, the international lifestyle-luxury magazine. *Flying Dragon*, the 45m M/Y Admiral Regale was also on display.

The projects Admiral X Force 145, developed with Dolbroserdov Design and the Admiral Sail Wave, designed in collaboration with Philippe Briand are also on the horizon.

"The success of an international exhibition of this magnitude confirms the strength of our business strategy," says the President of The Italian Sea Group, Giovanni Costantino. "We will continue in this direction, with the aim to establish ourselves more and more as authentic interpreters of the Made in Italy design and technique."
