

Admiral launch new 38m superyacht Tremenda

Italian shipyard Admiral announced that their latest 38 metre all-aluminium superyacht was launched from their facilities in Marina di Carrara just under a week ago. Named *Tremenda*, she is the third hull in the Impero series from the company, following the deliveries of *Cacos V* and *Nono*.

She features exterior design a masculine exterior from the drawing boards of Luca Dini, with her opulent interior from Gian Marco Campanino in collaboration with Admiral Centro Stile. Inside, her interior design team has utilised precious dark joinery throughout in both glossy and matt finished, alternated by rare marble panels and natural leather surfaces.

She accommodates guests over several well appointed staterooms, consisting of two VIP suites and two double cabins on the lower deck. Her full beam master suite is located on the main deck, featuring especially large windows and a spectacular full beam bathroom.

The yacht's beach club allows access to the full beam garage, featuring a side opening hull port for hauling and launching the main tender. Forward is access to the engine room.

The launch of *Tremenda* marks the third launch of 2016 for Admiral, following the launches of the 55 metre *Quinta Essentia* and the 50 metre *Ouranos*. Following delivery to her owner, she will be used privately, initially in the Mediterranean before heading to U.S. waters and the Caribbean, where her shallow draft will allow for easy cruising.
